

2017-2018: Salton Sea Management Program Committee Structure and Charge

Updated 9/29/2017

Science Committee

Charge is to provide scientific expertise and guidance on SSMP projects and efforts. The State or other committees will refer topics to the Science Committee.

Topics: Hydrology | Biology | Air Quality | Adaptive Management

10-Year Plan Committee

Charge is to advance implementation of the 10-Year Plan by providing input and making recommendations to resolve issues and concerns.

Topics: Habitat | Air Quality | Hydrology | Environmental Compliance

Air Quality Committee

Charge is to provide guidance on air quality regulatory compliance and coordinate with air boards. Committee to share purpose with the Science Committee on reviewing research issues and integrating regulatory issues going to the 10-Year Plan Committee and/or State.

Topics: Compliance | Dust Control | Monitoring

Long Range Committee

Charge is to consider alternative long-range solutions (twice yearly) and recommend those that should advance to scientific review. Committee to provide input on the Long Range Plan and identify funding to support its implementation.

Outreach Committee

Charge is to advise on local community outreach to inform and solicit input on health, air quality, and social aspects of implementation of the SSMP. The mission of the Outreach Committee is to assist the state in communicating clear and consistent mutual understanding of the Salton Sea Management Plan for communities and stakeholders concerned across the Salton Sea.

Topics: Community Outreach Plan | Public Meeting Planning
